

SPoonER MUST BE RETURNED

General Opinion Points to His Election Regardless of Platform.

NEWSPAPER TALK

The East Can Not Understand Wisconsin's Apathy to His Greatness.

SENTIMENT GROWING

(Special A. D. Dispatch.) Milwaukee Wis., July 22.—Sentiment is changing. From an assured victory for the Republican party, the issue looks doubtful at the present time. Unless an assured assembly representation from throughout the whole state, is assured for the return of Senator Spooner to the United States senate, regardless of any denial or affirmation of the party platform many hitherto strong Republicans will cease to work for the party interests and will either bolt the ticket or stay at home election day.

The foregoing statement from a Republican who knows the pulse of the conservative Republicans, means much. It means that unless the voters of the state see their folly in restricting Senator Spooner's re-election, they will go down in defeat before the re-organized Democratic forces. Will see a Democratic legislature and a Democrat sent to the Senate from Wisconsin.

Fight Still on. Advice from different scenes of battle, where legislative conventions are being held, all show that the faction element of the party is fighting to assure nomination of men for the coming legislature who will repudiate Spooner if he will not affirm the party platform.

Spooner Talk. Among the politicians who come into Milwaukee, the return of Senator Spooner to the senate, regardless of the Madison platform, is more than felt as a necessity to assure a Republican victory. In Ashland, State Senator Mills, so far appreciated the sentiment of the people that he, a staunch supporter of the Governor, withdrew from the race for state senator that an out and out Spooner man might receive the nomination. He so far said so in his letter of withdrawal.

Racine county is claimed by both sides in the assembly districts. It is said that both the anti-Spooner men and the Spooner men, have control of one district each. The county will doubtless fall in line for a Spooner Senator. In Dane the fight is also being waged quietly, but biterly, with excellent chances for a return of a solid Spooner contingent.

Newspaper Talk. The east more than the west, seems to be impressed with the greatness of Senator Spooner. The leading Republican and even Democratic papers, bewail the curtailing of the career of Senator Spooner in the Senate by a foolish provision of the state platform placed there for revenge. Boston, New York, Philadelphia and Washington papers are free in their comments on the shortsightedness of the Republicans of Wisconsin in allowing party politics to be controlled by petty jealousies when so great a man as Spooner is at stake.

Other Talk. Nor is the talk and sentiment all in the newspapers. Business men, returning from trips in the east, bring back tales of the adverse criticism that they are subjected to, for living in a state that does not recognize so great a mind, so great a statesman, as Senator John C. Spooner, is considered by the east. The entire cabinet of the President, have expressed themselves as sorry that such an action should be taken.

CREST OF THE FLOOD HAS PASSED KEOKUK

Mississippi River is Now Receding and Danger is Thought to Be Over.

Keokuk, Ia., July 22.—The crest of the flood in the Mississippi reached here yesterday and is now passing southward. During the afternoon the waters receded an inch and a half.

The rise of a foot or more in the vicinity of Canton, Quincy, La Grange and Hannibal carried the water over thousands of acres previously uninjured. The highest water is between La Grange and Gregory, where the water on Sunday was well below the rails of the St. Louis, Keokuk and Northwestern railway on the bank of the river. Now a flood is pouring over the tracks and reaching to the steps of the coaches.

Farmers are inclined to report much higher figures than a few days ago, but estimates already sent of from \$3,000,000 to \$5,000,000 in Missouri, along seventy-five miles of river frontage, tells the damage done by the water in figures.

Fifty-eight Drown. St. Petersburg, July 22.—A ferryboat while crossing the River Volga at Heronsnik sank and fifty-eight harvesters were drowned.

ENGLAND'S KING GAINS STRENGTH

Three persons were injured in a battle between two families living near Trempealeau over a boundary fence.

The yacht Ramona, which is cruising from Mississippi to Lake Michigan was injured by striking on rocks near Neenah.

George Anderson, of LaCrosse, aged thirteen, was badly bitten and torn by dogs. The animals have developed symptoms of hydrophobia.

ILLINOIS SOLDIERS IN A RIOT

Police Unable to Quell the Disturbance Call on Gen. Glendenin.

Springfield, Ill., July 22.—Three hundred members of the Third Brigade, Illinois National Guard, in camp at Camp Lincoln, came to this city and became so riotous that the police were unable to quell the disturbance. Chief of Police Herring sent to Camp Lincoln for aid. Gen. Glendenin sent down a provost guard of fifty men, who at the point of bayonet quelled the disturbance and finally corralled 100 of the rioters, who were lodged in the city prison.

THROWN OPEN TO SETTLERS

Rush to the Siletz Indian Reservation, Lincoln County, Oregon.

Oregon City, Ore., July 22.—Twenty-three thousand and forty acres of land on the Siletz Indian reservation in Lincoln county have been thrown open for settlement. The United States land office was thronged with people eager to file, about 100 claims being taken. The township contains the finest timber and agricultural lands on the reservation.

MISSOURI DEMOCRATS MEET

Choice of State Chairman the Chief Fight in To-day's Convention.

St. Joseph, Mo., July 22.—The Democratic state convention met here today at noon. Frank P. Walsh, leader of the opposition against the political rule of Governor A. M. Dockery, spoke to a large audience at the Tootle opera house last night.

Gossip concerning the convention deals more with the selection of a state chairman than with the nomination for the other office at the disposal of the convention. Comparatively few of the delegates will go into the convention with instructions for railroad and warehouse commissioner, but of the instructed delegates John K. Knott of Hannibal leads with 173. Bronaugh has 120, Park 52, Rice 45 and McGuire 21.

REBEL CHIEFS MAKE ESCAPE

Elude a Cordon of 1200 Men and Gain the Mountains.

ARE DESPERATE

Philippino Constabulary Used Are Not Able To Capture Them.

WILL JOIN OTHERS

(Special By Scripps-McLae.) Manila, July 22.—Last week a drive was instigated in the Cavite province for the capture of Pelizardo and Montallon, Ladrones chiefs, who have been making much trouble.

Chiefs Escape. Despite the close cordon that had been established the chiefs escaped with a few followers and made their way safely into the mountains. They were joined there by other outlaws.

1,200 Men Used. Twelve hundred constabulary were engaged in the drive and it was hoped that the two chiefs would be captured. The distance covered was fifty square miles.

INQUIRY CLEARS ALL OFFICERS

Admiral Crowinshield Explains the Illinois Accident to the Navy Department.

Washington, D. C., July 22.—(Special.)—Nobody is to blame for the accident suffered by the steering gear of the battleship Illinois, which caused it to ground and sustain some damage in the entrance of the harbor of Carlstadna, Norway. Secretary Moody received this afternoon the following dispatch from Rear Admiral A. S. Crowinshield: "Court of inquiry on grounding of Illinois clears commanding and other officers from all blame. Commends prompt execution of orders for the safety of the ship. Same is approved and forwarded to the department."

While the disposition of the department is to accept the finding as conclusive, officials who have learned the cause of the grounding are surprised that the court failed to report an officer to blame for carelessness. Reports not made public by the department show that the trouble was due to a bolt working loose in the steering gear. This bolt was in plain sight, and it was the duty of an officer of the ship to have seen that the gear was in perfect working order before leaving port.

It is evident that the Illinois has suffered considerable damage as Rear Admiral Crowinshield considered it necessary to convey it to the dockyard at Chatham, England.

A CARDINAL DIES VERY SUDDENLY

WILL PROTECT ALL

(Special By Scripps-McLae.) Washington, D. C., July 22.—The State Department this morning called upon the Navy Department for a war ship to be sent at once to Cape Hayti to protect American interests.

Battle Imminent. American and foreign citizens are fearful of the result of a proposed bombardment threatened by the insurgents, who are coming to Cape Hayti to bombard the city.

By Land and Sea. The United States consul reports that the insurgents are preparing to attack the city by both land and sea and that great fear is felt for the personal safety of foreigners living in the city.

MUST EXPLAIN WHY HE TALKED

Philippine Judge Advocate Must Tell Why He Criticized Officers.

Washington, D. C., July 22.—(Special.)—Colonel Stephen Groesbeck, former judge advocate of the division of the Philippines, who has just arrived at San Francisco from Manila, has been called upon by the secretary of war to explain a newspaper interview published this morning, in which Colonel Groesbeck criticized General Jacob Smith and Major Walter and declared the water cure to be humane. Colonel Groesbeck was the chief reviewing authority in Manila in the trial of Maj. Walter. He is now under orders to take station as judge advocate of the department of the lakes, with headquarters at Chicago. In the alleged interview Colonel Groesbeck is credited with saying that the Walter expedition was begun without proper provision and that General Smith was impetuous and erratic.

When this was called to the attention of the secretary of war this morning he directed Adj. Gen. Corbin to write a letter to Col. Groesbeck at Chicago and request an explanation of the appearance in the newspapers of the statements attributed to him. Unless the interview was given for publication it is unlikely that Col. Groesbeck will be further troubled with the matter.

LATIMER MURDER CASE IS NOW UP

Tutill Denies Any Improper Actions with Mrs. Latimer.

(Special By Scripps-McLae.) New York July 22.—William Tutill, the man mentioned in connection with the Latimer murder, was the principal witness before the coroner's jury today. He testified that his relations with Mrs. Latimer had been cordial but not intimate.

Despotic Austrian Law.

For using the word "archduke" on the stage at Vienna and thereby infringing a police regulation, Fraulein Frisch, a German actress, has just been fined \$10.

VILAS IS BACK IN THE FOLD

Writes Chairman Warden He Will Fight for Democracy, Not Bryanism.

A POLITICAL MOVE

Might Mean His Return to the Senate—Rose After Governorship.

SOME POLITICAL TALK

(Special A. D. Dispatch.) Milwaukee, Wis., July 22.—Mayor David S. Rose has formally come out and announced that he is willing to become a candidate for the nomination of Governor on the Democratic ticket. He says he will be a candidate but also asserts that if the people want him they must ask him as he will not enter into an unseemly scramble for the office. His friends believe that he mere announcement will be sufficient to give him the nomination and are congratulating him already on the victory that he will have over Governor LaFollette.

Mayor Rose is optimistic over his nomination. He claims his election and bases his figures on the majority he is sure of by claiming all the conservative Republican votes that are opposed to Governor LaFollette. He believes that these are enough with the regular Democratic votes to give him a handsome majority.

His Opposition. Milwaukee supports him, but Madison is against him. Leaders of the state democracy as Regan, Rogers, and Bird are all in arms against a Milwaukee candidate. Just who they will pick on and swear allegiance to is not known, but it is not Rose. The big Milwaukeean will have to paddle his own nomination boat without the three Madison politicians, who will fight him to the end.

Vilas Back in Party. Ex-United States Senator William F. Vilas has created a mild surprise by openly returning to the Democratic fold. That is he has returned to the fold with all the eliminations of the Bryan falacy wiped out and the old war cry and slogan of the Democratic party, "Free Trade or Bust" raised to the mast-head once more.

After six years of silence and restriction from all political life Senator Vilas has again emerged from his shell, and his entry into the political field is greeted by Democrats all over the state as a token of the return to power of Democracy.

Offers Services. Colonel Vilas has offered his services to Chairman Warden of the State Democratic Committee. He would work to cure tax and trust evils. In his letter to Mr. Warden he has sounded a key-note for Democrats in general to rally around the flag of the old Democratic party, to forget the Free Silver craze and once again strive for supremacy in the halls of congress.

Means Much. Senator Vilas' return to the Democratic party means much. If the democrats listen to his words of wisdom, follow his plan of campaign, they will bring back all the dissatisfied members who deserted it in 96. It will mean that in the bitter fight raging in the Republican ranks is a ray of hope for a victory of a sweeping nature.

Might Choose Vilas. With the legislature Democratic it would look probable that the man who had led them to victory should be returned to the Senate. Vilas stands for the older element of the party, he is not in sympathy with any populist craze and should the state convention re-affirm the Kansas City platform would doubtless retire again into his shell until such a craze had passed away.

SENATOR M'LAURIN DECLINES POSITION

Notifies President Roosevelt That He Cannot Accept Place on Court of Claims.

Oyster Bay, N. Y., July 22.—President Roosevelt is in receipt of a letter from Senator John L. McLaurin of South Carolina declining the proffered appointment to the vacancy on the bench of the United States court of claims. The President much regrets Senator McLaurin's decision, as he believes that McLaurin's senatorial experience and his career as attorney general of South Carolina would have rendered him a particularly good addition to the court of claims.

The President now is uncertain what he will do about Senator McLaurin. It is understood that he is anxious to appoint him to some position in recognition of his services. Senator McLaurin's letter is couched in the most positive terms and evidently was based upon a newspaper article accompanying the letter which stated that the senator had sold himself for the prospect of getting such an office as that offered to him.

Mrs. C. B. Salmon and Miss Cornelia Salmon of Beloit were in the city for a couple of hours this morning.

DRAMATIC NOTES OF COMING YEAR

SUNDAY NIGHT PERFORMANCES
ARE TO BE INTRODUCED

AT THE LOCAL PLAYHOUSE

High Standard of Coming Season Is
Already Assured—New Or-
chestra Leader Secured.

Although the dramatic season will not open for some time yet, there are preliminary indications of activity at the Myers Grand. New carpets have been laid, a thorough cleaning is in progress and new sidewalks have been laid to the front and side of the local theater.

These items, however, are of minor importance to the theater patron and he will be pleased to learn that already Manager Myers has secured definite bookings which assure a dramatic season, the equal, and doubtless the superior of any ever enjoyed in this city. Definite dates with such stars as Otis Spinnaker cannot be secured until the company's route for the season is made up but negotiations are pending for many of the leading attractions of the coming season. A recent letter from Mr. Skinner's manager says unless plans are changed he will be in Janesville during the month of September.

Change in Orchestra
Music lovers will be pleased to know that a fine orchestra is an assured fact for the coming season. It will be under the direction of Adolph Faber, of Dubois, Pa., who comes with the highest recommendations as an orchestra leader. Prof. Faber will be here next month and it is his intention to secure as fine musicians as he can and organize an orchestra of about eight pieces.

Sunday Night Plays
Another innovation is to be tried this year and it remains to be seen how successful it will prove. Yielding to a popular demand Manager Myers has decided to introduce Sunday evening performances for the benefit of people who have no other evening for recreation. The Sunday evening performance is one of the most popular in the theaters in every city of any size in the state. No high priced productions will be played on Sunday evening, 75 cents being the highest priced admission for that night. This is an experiment and on its success depends its continuance.

Opening of Season
The regular dramatic season will open August 29 with "Along the Mohawk" but there will be a brief preliminary season of popular priced attractions beginning next Friday evening. The dates which have been closed for the coming season include many excellent attractions and are as follows:

Partial Bookings
July 25.—Alden Benedict's company in "Thelma."
July 31.—Alden Benedict's company in "The Deemster."

Aug. 6.—Elmer Walters company in "A Thoroughbred Tramp."

March 19.—Louis James and Fred-

erick Warde in an elaborate revival of "The Tempest."

April 4.—Alden Benedict's company in "Wormwood."
April 2.—H. Miller Kent in "The Cowboy and the Lady."

Some Special Attractions
There will also be such productions as "King Dodo," "The Sultan of Sulu," "The Wizard of Oz" and several of the new plays. The year will be fully up to the high standard of last season when Janesville people saw so many high grade attractions, notable among them being such performances as "The Chaperones," "Florodora," "King Dodo," Margharita Silva in "Miss Bob White," Otis Skinner in "Francesca da Rimini," "The Strollers," Herbert Keelcy and Etta Shannon in "Her Lord and Master," "Lovers' Lane," "Belle of New York," "The Burgomaster," "The Climbers" and Thomas Jefferson in "Rip Van Winkle."

To Come Again
Several of these, including "The Chaperones," "Miss Bob White" and "The Belle of New York" will be seen here again this year. Mr. Keelcy and Miss Shannon will be seen in William Gillette's great play "Sherlock Holmes," and these are but a few of the treats which Manager Myers has in store for his patrons.

HAVE FINISHED WORK HERE

THE REPAIRING GANG LEAVES

St. Paul Road Is Leveling Tracks and General Surface Work.

Bechtel's repairing gang, which has been doing surface work in the C. M. & St. P. yards in this city for some time past, have left for Brodhead where the same kind of work will be done.

At certain intervals it is necessary to surface the tracks to keep them in good running shape, raising the track where it has sunk, and leveling it where it becomes uneven. For six weeks past, this crew of about fifty men has been employed on the Janesville tracks.

Gone to Brodhead
The men have now been moved to Brodhead where the tracks in that place will be surfaced. With the size of the gang at work it is possible to cover 800 to 1,000 feet of track a day and it is hoped that before winter the whole line as far as Mineral Point may be repaired.

Live in Hotels
This gang of workmen is not quartered in cars as is done with many crews but they are kept at hotels in the nearest town to the place where they are working.

What Osteopathy Has Done.
On August 24th, '99, Dr. D. H. Goller of Victor, Col., came and was examined. He is a man of forty-one years of age and a good family history, good health up to November, '97, when a severe attack of LaGrippe left him to suffer for two years in spite of good medical aid with what he called neuralgia or wandering rheumatism of left side, but called cardiac neuralgia by the medical fraternity. Cause: The LaGrippe had left spinal muscles badly congested and contracted, with ribs 3 to 5 inclusive, badly drooped thus interfering with intercostal vessels and nerves. It took just one month of Osteopathic manipulation to relieve the congestion and replace the ribs to stay—and up to the present date there is no recurrence of the pain.

Acute Nephritis.
Mr. Nolan, a well-built man and aged nearly 40 years, was suddenly taken ill with severe pains in back. Amount of urine passed in twenty-four hours nearly two quarts, specific gravity 1.020, due to large amount of urea and phosphates. Family history good and good health up to two years ago, when he had a severe and protracted case of nephritis. Upon Osteopathic treatment of 10th to 12th vertebrae inclusive and raising 11th and 12th ribs, relief from pain was at once obtained and in two weeks apparent good health was restored. Cause of trouble an irritation of renal splanchnic nerves and cured by removal of irritation.—Dr. Merrill Howen, D. D., Cripple Creek, Cal.
C. W. Bliss, D. O., is located in the Hayes Block, Janesville.

The First Steamboat.

A memorial erected by Edward Longstreth of Philadelphia to John Fitch, who was the first to apply steam to the running of a boat, has been turned over to Westminster, Pa. It bears the inscription: "John Fitch here conceived the idea of the first steamboat. He ran a boat with side-wheels by steam on a pond below Davisville in 1785. Bucks County Historical Society."

Gave Woman Good Advice.

While Congressman Warnock of Ohio was serving as judge of the court of special pleas in his district, which position he held for ten years, he was one day trying a case in which a woman was a witness. An attorney asked her age and the witness hesitated. "Better answer the question now," said the lawyer. "The longer you hesitate the older you will be."

CEMENT POST WALLS ARE UP

DESPITE RAIN AND HINDERANCE
WORK IS PROGRESSING.

NOW READY FOR THE ROOF

The Spur Track Is Laid, and Screening Plant To Come Later.

It is now possible to gain a definite idea of what the completed building of the Cement Post Works will be from the stinging in the building that has been reached. The walls are finished, and the roof is in a large part in place.

The walls, over 1,600 feet in length, they were placed end to end, have been completed, despite numerous hindrances in the way of lack of material, washouts, and inadequate transportation for the brick.

Roof Going Up
Work on the roof has progressed rapidly. There will be three sections. The middle raised above the two at the sides so as to allow windows for light and ventilation, over the drying shed. The framework of the two side sections is in place except about one hundred and fifty feet. The roof boards have been already placed over a large part of the shed.

Spur Is Completed
The south spur track is completed to the final ballasting. On the north switch the ties and rails have been laid only about one-half of the distance which the completed track will cover.

Other Work Delayed
The work on the crushing and screening house which is to be built on the hill above the plant will not be begun until the difficulties of the main building have been defeated. The Hayes Bros. grading crew is still on the interurban and nothing more has been done on the interior grading of the works.

Our Territory.

The noncontiguous territory of the United States, now furnishes a market for \$50,000,000 worth of the products of her people. A statement just prepared by the Treasury Bureau of Statistics, shows that the shipments during the fiscal year just ended, have been, in round terms, as follows:

To the Hawaiian Islands, \$20,000,000
To Alaska, 15,000,000
To Porto Rico, 10,000,000
To the Philippines, 5,000,000

Total, \$50,000,000
This practically is five times as much as the exports to those territories in 1897, when none of them except Alaska, was under the American flag. The exports to Porto Rico in the fiscal year 1897, for example, were \$1,988,888, and in the fiscal year 1902, they were over 10 million dollars, the exact figures for eleven months being more than 9 1/2 millions; and while the figures for the twelfth month have not been received, it is certain that the total will exceed \$10,000,000. To Hawaii our exports in the fiscal year 1897 were \$4,690,075, and for the fiscal year 1902, the best estimate of the custom authorities is, in round terms, \$20,000,000. Exact figures of the shipments to Hawaii are not at present available, but it is known that the shipments from Hawaii to the United States during the year, will amount to about \$23,000,000 and it is believed that the estimate of \$20,000,000 for our shipments to the Hawaiian Islands is a conservative one. To the Philippine Islands four exports in the fiscal year 1897 were \$94,597, and in the fiscal year 1902, will be over \$5,000,000, exclusive of shipments made by the Government for use of its troops or other officers in the islands. To Alaska, the best estimate obtainable of the shipments in 1897, is \$3,241,000, while those for the fiscal year just ended, are estimated by the custom authorities at \$15,000,000. This would make the grand total of shipments from the United States to its noncontiguous territory \$50,000,000, exclusive of goods sent by the Government for use of the army or of its officials.

Band to Destroy Sparrows.

The Sparrow club of Elnesham, Essex, England, formed of fifteen farmers, have destroyed 36,000 old sparrows during the past ten years. The members pledged themselves to kill between September and May as many sparrows as they had farm acres. This year only one member had failed to keep this pledge, and he, being seventy short, has paid the customary forfeit of a penny a head on seventy unslain sparrows.

Revise French School Grammars.

Georges Leygues, the French minister of public instruction, having reformed French spelling and syntax by official decree, is going to issue an official French grammar, which will be the only one used in French schools. He has also appointed commissions to revise the Latin, Greek, English and German grammars.

The Salvation Army's lifeboat, Catherine Booth, which is entirely manned by Norwegian Salvationists, has rescued the crews of 52 fishing boats during the past two years.

Blind Creatures of the Earth.

One hundred and seventy-two species of blind creatures are known to science and many more are constantly being discovered in great caves.

WORK PROGRESSING

New Library Walls Go Up Rapidly

And Are Handsome
Contractor John Cullen is making rapid progress in the building of the public library. Already several courses of brick have been laid and part of the window frames are in place.

The gray facing brick used in the second story of the building gives it a handsome appearance. The building when completed will be a credit to the donor, the contractors and the city. The rain has interfered considerably with the work, but a few weeks of good weather will show a marked improvement in the progress of the building.

An Invitation.

A most cordial invitation is extended to you and your friends by the Footville Christian church, to worship with them in their dedicatory services, next Lord's day, July 27. The choir, assisted by Miss Yelah Howe, of Monroe, and Mrs. Elmer Westall, of Havana, Cuba, will render special music. The minister, David N. Wetzel, will be assisted by Milton Wells, of Footville and C. G. Kindred, one of the leading ministers of Chicago.

STRING VERSUS WIND MUSIC

LIVELY CONTEST LAST NIGHT

The Imperial Band and Italian Orchestra Play Against Each Other.

Battling in a war of music, stringed instruments and those of the wind persuasion struggled one against the other, on Milwaukee street Monday evening. No officials had been appointed and no decision was rendered but it is safe and impartial to call the result a tie. One of the contesting parties, the Italian orchestra, took in more money that evening but their opponents, the Imperial band, had received their pay in advance. The band attracted the crowds to the street, the orchestra had the attention of many.

Music Galore

But a detailed catalogue of the merits and demerits of each would have little to recommend it. Suffice it to say that those who were on the street for music heard it, in both orchestral and band music, played by both home and foreign talent.

Program Numerous
It would be hard to give a list of the numbers given by the traveling artists, Dagos if you will. The program presented by the local organization follows:

March—Battle of the Waves—Hall.
Overture—Recapitulation—Schlegel.
Serenade—Twilight—Shadowa—Peckham.
Waltz—Sweet Repose—Dalley.
Medley—Sounds From the South—Beyer.
March—Storm King—Paul.
Two-Step—Bachelors—Maidly—St. Clair.

March—Mexico to Buffalo—Weldon
The concert which was given last night had been postponed from last week. The regular concert for this week will be given tonight in the Court House Park, the weather permitting.

A COMMENT.

The following appeared in the Racine Daily Journal of July 19: A very meritable comment on the Janesville-Racine golf contest has been made by Mr. Collin C. MacLean, the well known Janesville liveryman, in a letter which he wrote to his old friend John M. Driver of this city in which he said: "Friend John: We have had your golfers here and by the hardest kind of playing succeeded in defeating them by five points. The records of the local links were shattered in a number of different places. Mr. Bull making the best record ever made on the links in match play. Miss Mitchell the best for a lady with a score of 48 and Lorimer, Racine's professional, made the best record for the links, medal play and still our record of never being beaten upon our own grounds holds good, (by the skin of our teeth). As ever your friend, Collin C."

LATE TELEGRAPHIC NEWS

MANY MINERS
WILL NEED AID

Officials Have Difficult Problem to Solve in Dividing the Cash.

FIRST \$50,000 IS SENT OUT

Secretary Wilson Sends Funds to the Three Anthracite Districts to Be Distributed Among the Strikers and Their Dependents.

Indianapolis, Ind., July 22.—The problem of collecting and distributing \$500,000 a week among the striking coal miners is presenting many difficulties.

There are now some 100,000 workers of all classes in the region who are idle and in need of aid, and the union officials estimate that there are dependent upon these some 499,870 persons. The \$500,000 is to be raised each week will provide not quite \$5 cents a week for each. There are also, according to the union figures, some 423,330 persons dependent upon the 50,000 adult strikers who have already left the region and obtained work elsewhere.

It has not yet been decided if these are eligible to aid from the union, but the majority will certainly apply for it and insist upon getting it, although they may, getting aid from the strikers at work in other places, not demand as much as those who have no work.

Provide for 900,000. According to the figures of the union there are 150,000 strikers, and dependent upon them are 749,500 persons.

In round numbers there are close to 900,000 people for whom the union is endeavoring to provide \$500,000 a week.

In the strike of 1887-'88 in the Lo high region, which lasted for six months, the 14,000 miners managed to live on a strike fund which did not quite reach \$140,000, and, although at the end of that time, when they returned to work, there were numerous demands for more food and clothing than could be provided, old miners say they do not recall that there were any cases of suffering, although many of the strikers were hard pressed.

W. B. Wilson, national secretary and treasurer, to whom all subscriptions are payable, and who will distribute the funds, said that the office force will be increased immediately, so there will be no delay in handling the money.

Distribution of Fund. The defense fund, is to be distributed among the three anthracite districts according to their membership. Wilson says that district No. 1 will probably receive 55 per cent; No. 2, 35 per cent; and No. 3, 10 per cent. District No. 1 has more members than both Nos. 2 and 3. The money will be sent from Indianapolis to the secretaries of the anthracite districts and distributed by them among the strikers.

The first financial assistance was sent to the strikers, when Secretary Wilson forwarded to the secretaries of the three anthracite districts checks for their respective shares of the \$50,000 appropriated by the recent convention.

WOMAN DIES FOR A PET DOG

Pulls It Away from Danger and Is Run Over by Train.

La Salle, Ill., July 22.—Mrs. Ellen Wright of this city lost her life in an attempt to protect her pet dog. She, with her sister, Mrs. John Madison, were walking along the Illinois Central railroad tracks south of the city. A passenger train was almost upon the dog, when Mrs. Wright leaped to its rescue. She tossed the animal to safety, but was unable to avoid the train, which crushed her to death.

FIFTY GO DOWN
CLOSE TO SHORE

Tug Collides with an Excursion Steamer, Causing Her to Sink

ACTS OF HEROISM ARE MANY

Man Swims Ashore with Wife and Little Child, While Two Others Save Three Women by Supporting Them in the Water.

Hamburg, July 22.—Scenes of horror aboard the excursion boat Primus, sunk by the Hamburg-American tug Hansa, while going down the Elbe, are detailed by eyewitnesses. The excursion steamer had 190 members of the Elbe Club Choral society on board and was returning to Hamburg after a river excursion. The accident happened at 12:30 o'clock in the morning, near Nienstedten, 100 feet from shore. The Hansa returned to Hamburg, bringing those it rescued.

Divers who are searching for the bodies of the victims have already found forty-five. Great crowds are gathered along the foreshore, near the scene of the accident, and there are heartrending scenes when the bodies of the dead are recognized by relatives.

Bollers Explode.

Survivors describe the collision as occurring with dramatic suddenness. The band was playing on deck and many couples were dancing and others singing when the crash came like a thunderbolt. A great, blinding pillar of flame seemed to rise out of the water. The Primus immediately gave such a list that no one aboard of her was able to keep his feet. Those below crowded the companionways in their efforts to reach the deck. Most of those in the saloon were drowned. In the midst of the panic the incoming waters reached the funnels. The bollers exploded and many were mutilated by pieces of flying metal.

Many Show Bravery.

The panic was horrible. Most of the men fought for their lives regardless of their neighbors, yet many deeds of heroism are reported. One man carried his little son, who was sleeping below, to the upper deck, and, with his wife holding one arm and the boy on his back, he swam ashore. Two youths saved three girls by supporting them in the water.

One rescuer was drowned by others clinging to him in desperation and dragging him down. Several were able to seize ropes that were thrown out from the Hansa, but before they could be hauled aboard they were pulled off by frenzied maniacs and all were drowned in the confusion. Whole families disappeared. In one case a husband, his wife, six children, mother and father-in-law were all drowned.

Boat Was Old.

The Primus was the oldest passenger boat on the Elbe. She was built in 1844, but was quite seaworthy. She was ninety feet long and a paddle wheel boat. The Hansa, which was built in 1881, is of 528 tons burthen, and 500 horse power. She was formerly an ice-breaker.

Captain Petersen of the Primus swam ashore. He and Captain Sachs of the Hansa both surrendered themselves to the police.

The Hamburg-American Steamship company has issued a statement saying that the night was clear and the moon was shining. At about midnight when near the landing stage at Nienstedten the Hansa sighted the red light of the Primus.

Cause of Collision.

Both were steering absolutely clear of each other. When the Primus was about 450 feet distant from the Hansa she suddenly put her rudder hard apart and attempted to cross the Hansa's bow. She changed her course so suddenly that a collision was unavoidable. The Hansa immediately reversed her engines, but forty-five seconds later the crash came.

The Hansa, realizing that the hole she had made in the Primus would cause the latter vessel to sink, tried to drive her ashore, but this was impossible. She rescued fifty persons. The Primus sank in four fathoms of water. Owing to the explosion of her bollers she probably broke in two, for nothing of her is visible.

Capt. Petersen says he changed his course in order to avoid a smaller steamer on his starboard side. He intended to pass under the Hansa's stern.

WEEKLY MARKET REPORT.

The sudden and unexpected turn of affairs in the July corn deal naturally affected the wheat market adversely, and came very near forcing the price of September wheat below 70c, again, which the bears have so strenuously been trying to accomplish. They were compelled, however, to sell short a great deal to bring about the little decline there was, and it is safe to say that it could not be brought back without causing an advance. Considerably above where the market was when the break started. There is no denying the fact, however, that to a certain extent the routine news early in the week favored the bear crowd, and they made the most of it. There was generally good weather for harvesting, long overdone, which caused some increase in the movement of new wheat. There was also a slow foreign demand and an increase in the visible supply, the first for some time, and but little outside trade. These were the bear features. As usual when the market is declining but little attention is given to bull news, factors, that at other times might be considered very bullish, are brushed aside, but it is not out of order to note a few of the bullish features which are liable to be given consideration at any time and on which I base my belief in much higher prices ultimately.

The movement of new wheat for instance is not burdensome, in fact it is very light considering that we have had almost two weeks of fairly good weather in the winter wheat country, sufficiently so to permit field operations, and we find primary receipts are not large in any winter wheat market, certainly less than has been so freely predicted. If the movement was burdensome cash wheat would not still be commanding a premium everywhere. The bulk of good wheat that is being offered is going to millers, and the primary markets are getting the poor stuff, which is shown by the small amount of contract wheat in the daily arrivals here. During the past six days Chicago has received 1,032 cars of winter wheat, of which only 51 cars graded No. 2 Red. This is not very encouraging for the shorts in July wheat who for almost two months have been talking about the big run of new wheat that we would have before this time, and of course, the bulk of it according to their predictions, was going to be contract wheat. I know that as a rule a poor quality of grain is not a bull argument, owing to the large discount at which it must usually be sold, but the present is, I think, an exception to the rule, for the reason, I believe, only the first movement will be of poor quality, and will be very small. The bulk of the crop will be good wheat and will be held or taken by millers. Low grades will not fill July sales and if this ratio of inspection keeps up, the shorts will have to cover their sales in the pit, and before the end of the month, I expect to see July wheat sell at a much larger premium over the September, than it has at any time. Yesterday's market was merely an illustration of what we may have. There has been only 15,000 bu. of wheat delivered on July contracts so far this month, and there may not be much more, as the cash wheat held here, is controlled by strong parties, and is worth a premium over the July in store. Evidently it is good property. The small increase in the visible supply, while a surprise, might have been caused by various reasons, and does not necessarily indicate a continued increase every week. The slow foreign demand is caused more by the reason that certain of our statisticians have been telling them for some time past that we would harvest another big crop, and naturally, the foreigners, like our bears, are waiting for it to come. For the past two months nearly every private crop reporting bureau, have pictured the probable crop would be at least 100,000,000 bu. more than the Government report indicates. We had this same experience a year ago, during the month of June and forepart of July, causing the foreigners to hold off buying until they could wait no longer, then suddenly and before any one realized it, they had contracted for enough cash wheat and bought futures to an extent large enough to advance our market 20c. a bu. In other words, we sold them our surplus at 10c to 20c a bu. below what we might have gotten, and our own people were compelled to pay the higher prices which prevailed all the balance of the year. To make the present situation still stronger, we will have a smaller crop, and we certainly have much smaller reserves than we had a year ago. Who knows but what foreigners have already provided for their requirements by buying enough September wheat here the same as they did a year ago? The fact of September wheat being worth about the same price as is December would indicate that some one is buying it. There ought to be a carrying charge of about 2c. a bushel. It is well to look into figures and see how much wheat we will have to spare from the crop we are now beginning to harvest. The Government report and my private advices will not indicate that we will have a crop of much if any over 600,000,000 bushels and the visible supply today is less than 20,000,000 bu. I will not attempt to enter into an argument with any of the numerous private statisticians as to the reserves of old wheat left in first and second hands (outside of the official visible supply), figures pertaining to that are only a guess, but I cannot help noticing the discrepancy or shortage in supplies remaining, from what certain of our statisticians led us to believe, we would have at the end of the crop year and which we are now compelled to acknowledge were entirely wrong.

AGED NEGRO CONVICT IS DEAD

Joshua Wall Expires in Indiana Prison at Age of 102.

La Porte, Ind., July 22.—Joshua Wall, colored, who was sent up for life from Allen county in 1876 at the age of 76 for murder, died at the state prison in Michigan City of old age, being 102 years old. He was born a slave in North Carolina, but after his liberation lived near Fort Wayne. At the time of the commission of the crime he was a resident of Ohio, just across the state line, but the murder was committed in this state.

The Engineer

Learning from the cab window does more with his ears than his eyes. The "rumble and grumble and roar" of his engine are to him articulate speech, and a false note in that jumble of sounds

would catch his ear as quickly as a discord would strike the ear of the leader of an orchestra. He thinks more of his engine than himself. That is why he neglects to notice symptoms which are full of warning. The foul tongue, the bitter taste, sour risings, and undue fullness after eating are but symptoms of dyspepsia or some form of disease involving the stomach and organs of digestion and nutrition. In time the heart, liver, lungs, or other organs are involved and the engineer has to lay off.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and organs of digestion and nutrition. It purifies the blood and builds up the body with sound healthy flesh.

"I used ten bottles of Dr. Pierce's Golden Medical Discovery and several vials of his 'Pleasant Pellets' a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. F. Thompson of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief, as I had suffered so much and it seemed that no doctor could do me no good. I got down in weight to 125 pounds, and was not able to work at all. Now I weigh 160 and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicine."

THE PRIMARY LAW
The attitude of the governor, when he declared defiantly, in accepting the nomination, that there was no uncertainty about the meaning of every plank in the platform, and that men must be elected to carry out its provisions in the legislature, meant that the obnoxious and impractical Stevens bill is again to be brought forward and foisted upon the state without regard to consequences.

The Gazette has vigorously opposed this measure, and will continue to oppose it. While endorsing the man, who stands as the accredited nominee of the party, the paper will not stultify itself by endorsing his vagaries.

The present caucus law is defective, because party lines are not protected and Democrats are able to control Republican caucuses when invited to do so, as demonstrated by recent experiences. The primary law removes all barriers, and "fair-minded Democrats" under the management of designing leadership, would hold the balance of power indefinitely.

The state has no use for this sort of reform. While it may have a high sounding title, it lacks the first elements of common sense, and its sole and only design, is to perpetuate in office the men who are directing the scheme.

The Spooner episode has removed the scales from some eyes that have long been color blind. The awakening was rude, because so unexpected. There will be another awakening when the perniciousness of the primary law scheme is fully considered. Time has added nothing to its popularity, and it never possessed anything in the way of merit to recommend it.

The primary law is not a political measure, and should not be so considered. It has to do with all parties and should be treated the same as a constitutional amendment. Submit it to popular vote, and let the people say whether they want it or not.

The plank in the platform, which attempted to read Senator Spooner out of the party, is closely allied with this primary law plank. It declares in substance, that if the Senator decides that he can not comply with conditions, that his successor must swear allegiance, before his name will be considered.

That's dictation with a vengeance and that is LaFolletteism pure and simple. There is only one thing for the party to do, and that is to elect a Spooner legislature, and safeguard the interests of the party, and the welfare of the state.

THE ERA OF REFORM.
The era of reform, through which the state is just now passing, is like an attack of measles, possessing many disagreeable elements, but not particularly dangerous.

An element of the Republican party under designing leadership, has gained control, and if plans are carried out, the state will have a taste of wild and woolly reform. The executive branch of government is fully committed, and it now remains for the people to say whether their representatives in the legislature shall be in accord.

The common, every day people of the state, have yet to discover that radical and impractical reforms are demanded. The state has long been noted for conservatism and hard common sense. Nothing has occurred to change conditions.

It may require a little time for them to become aroused to the danger of the situation, but time is all that is necessary.

Governor LaFollette will be re-elected, because he is the nominee of the Republican party, but he will not be permitted to run the state according to his ideas of reform. The voice of the people will be heard through their representatives and it will contain no uncertain sound.

One by one they have left the anti-Spooner column. One by one the papers of the state that have howled against the methods of the conservatives against the methods of the conservatives have come to see the errors of their way and are now ready to eat crow, if they can accomplish Spooner's re-election that way. And even if they

are penitent, not one of the conservative papers have said "I told you so."

It is a question whether the United States government cannot be held as necessary to the fact in the destruction of the tower of Campanile in Venice. You know some time ago the rowdy crew of the U. S. S. Chicago, visited Venice and shook the city of the Doges up. Perhaps they also loosened a few bricks in the famous old tower and that's why it fell.

The police will have their hands full if they keep up the work begun last Saturday night of clearing up all the drunks to be found. They made a good start and the crusade is now under full sway. By the way, Carrie Nation is also coming. If she isn't sidetracked somewhere. Wonder if the two things have any connection?

Had the irrigation bill gone over until next session of congress, there would have been no irrigation bill talked of. The farmers of the south-west are laying all their present floods to the weather man that wants to beat Uncle Sam out of a job and is sending rain and flood by the tons.

There is not half the same interest in a brutal fight, that there was five years ago. The Jeffries and Fitzsimmons go, out in Frisco, next Friday night, is not half as big affair as the Corbett-Fitzsimmons fight at Carson City, five years ago. That is in importance as a news item.

State Senator Mills has deserted the anti-Spooner crowd. Fearing that he would not receive the nomination and some anti-Spooner man would, he has withdrawn in favor of a strong Spooner candidate, who now has good chances of nomination and election.

While a golf course is not the chief attraction of a city, the Sinnissippi club is receiving all sorts of favorable comment on the excellence of its grounds, from papers all over the state. A golf reputation will help some.

Distribution of the green persimmons, plucked at the Republican convention last week, has already begun. Evidently the faction have the whole election settled before the voters have a chance.

Strange, but it is a fact, that since King Edward has had appendicitis or something like it and is getting well, few of the ultra fashionable have found it necessary to die from the effects of the disease.

Secretary Wilson once referred to Kansas as an arid desert. Now he is using a row boat to navigate the corn and oat fields, while he is telling the Kansas farmers the great advantage of irrigation.

Boston has evolved a novel idea as to keeping tabs on its street cleaning department. It has employed a photographer to take snap shots of the workmen every time he sees one standing idle.

CHIPPewa Herald: Senator Spooner has again been called by President Roosevelt for consultation. Another evidence of his popularity with the chief executive of the nation.

Merrill Advocate: Senator Spooner will be returned to the United States senate, we believe. And that with the assistance of practically the whole LaFollette strength in the legislature, not because LaFollette gives his consent, but because his consent will not be asked.

Depere Democrat: The qualified endorsement of Senator Spooner by the Republican state convention was a disappointment to numerous republicans all over the state and is admitted by many to be an unpardonable mistake that will cost the party thousands of votes in the coming contest.

Eau Claire Telegram: If the Republican platform is what it is expected to be, and Spooner consents to stand on it with LaFollette, it will leave the Stalwarts in an odd position, and Spooner will be taking an attitude differing totally from what he has been supposed to occupy. It does not seem likely, on the whole, that Spooner would do it.

Madison Democrat: There is something pathetic in the attitude of the State Journal and the Oshkosh Northwestern. They undertook to support both the LaFollette wing—now the whole body of the fowl—and Senator Spooner. When the senator was stricken these two journals give groans that are full of anguish. They are fast learning the ways of the politician.

Appleton Post: As a self-respecting man and a Republican, who has borne aloft and in triumph the banner of his party in many a strenuous contest, we believe that Senator Spooner will refuse to acquiesce in the conditions imposed upon him, even if he could do so conscientiously. We further believe that he can safely appeal—or rather the Republicans of Wisconsin in his behalf—from the dictum of the convention to the judgment of the legislature for a vindication in his re-election, which the interests of the nation no less than the senate, demand.

Sun Prairie Countryman (Ind.): Senator John C. Spooner, the most popular man in the Republican party in the state, next to the governor and one of the most popular in the United States, is asked to endorse the views of his most pronounced opponent; to subscribe to that which his friends have most persistently fought—the

vagaries and revolutionary theories of LaFollette—if he would retain his senatorial toga. The senator can not do it! He must adhere to his declaration of 1900 and not be a candidate for re-election. Can the Senator's loyal friends submit to such treatment if their idol? Can they consistently support the man who has been his undoing?

Milwaukee Wisconsin: When Secretary Root said, "I do not believe the situation will prevent the return of Mr. Spooner," he evidently had in view the fact that a state convention is not a state legislature and that the choice of the people as to the United States senatorship will be expressed at the polls when members of the Legislature are elected. The friends of Senator Spooner will be heard from in November.

Milwaukee Journal: The spectacle of a lot of avowed LaFollette-Spooner men, entirely silent while the Spooner resolutions were up, breaking out in agony over Harvey, is one to be remembered—and thought over.

Oshkosh Observer: There is but one thing now for Senator Spooner to do, since the Republican state convention, under the lash of Governor LaFollette, so unequivocally stated, that if he desired to be elected to the United States senate for another term he must renounce his manhood and agree to swallow the platform adopted by that body—floor, pillars and all—thereby bringing himself down to the level of that Populist crowd.

That Senator Spooner will do no such things as that, is certain. That he will not be obliged to do any such thing in order to secure a re-election, is equally certain. His fame and high standing in the council halls of the nation were not made through the medium of petty state politics, but through the larger, broader channels of the nation's most momentous questions and problems of world-wide importance. He has not allowed himself to be drawn into the vortex of state politics, that has been seething and foaming for a year past, by word or deed.

Stoughton Hub (Rep.): What do the Spooner-LaFollette straddlers think about it now? Spooner and LaFollette, indeed!

If the shameful Spooner resolution passed by the state republican convention Wednesday means anything, it means that Senator Spooner's scalp is dangling from Gov. LaFollette's belt. And the republican party in Wisconsin, in convention assembled put it there. LaFollette's revenge is complete. His cup of joy is running over. And the Republican party of Wisconsin, in convention assembled, is accessory to the crime.

Oh, the shame of it all! Republicans read that damnable, insulting resolution, and then blush for your party.

John C. Spooner, the one man in the United States senate whom President Roosevelt has declared is his right arm.

John C. Spooner, whose conspicuous and brilliant record in the United States senate has commanded the admiration of the nation.

John C. Spooner, who has been fighting valiantly the battles of true Republicanism at Washington while his pigny detractors have sought his undoing at home.

John C. Spooner, the acknowledged peer of any man in the greatest deliberative body on earth.

And this is the man whom the Republican party of Wisconsin has repudiated, discredited, insulted and stabbed to death.

BUSY SEASON FOR HEALTH OFFICER

WORK DONE BY DR. EDDEN

Prevalence of Contagious Disease Is Over—Need for Sanitary Reforms in City.

Health Officer R. W. Edden reports that since January 1, when his term of office began there have been 116 cases of contagious disease in the city that his attention has been called to. Of this number 69 were scarlet fever, 31 small pox and 16 diphtheria. Out of this number of cases, there have been but three deaths and these were the result of diphtheria. At present there are but three cases of contagious disease in the city, they being scarlet fever.

During his term of office, up to last night, Dr. Edden has investigated 304 complaints and has done all in his power to remedy them. The city's alleys are the greatest trouble at the present time. Under the present law the tenant is not responsible for the alley and often the owner of the property is a non-resident or cannot be found. This makes it very hard for the health officer.

It is proposed to inaugurate a system of garbage boxes in the alleys and make the tenant responsible for the condition of the place.

Another thing that the city needs is a dumping ground for garbage. At present there is no such place and as soon as people begin dumping in a place they are ordered away so they hunt up another one which lasts for a few days. All of these things will have to be remedied before the health officer can successfully combat with disease.

PLUCKY CADETS. WILL RAISE \$500

YOUNG BOYS TO EARN MONEY
FOR THEIR UNIFORMS

BY CANVASS FOR MAGAZINES

Christ Church Cadets Start Out on
an Enterprise Which Deserves
Cordial Support.

With a courage worthy of their military calling and of the uniforms which they hope soon to wear, the Christ Church Cadets have undertaken the task of earning \$500 by individual efforts of the members of the company. This is the sum necessary for the purchase of the handsome new uniforms which the cadets hope to secure before they make their first appearance in public.

This week an army of thirty young boys has started out to invade the city and secure financial supplies in the shape of subscriptions to two popular periodicals, the Saturday Evening Post and the Brown Book of Boston. The youthful invaders are armed only with boyish ingenuity and winning smiles but it is safe to say that Janesville's generous-hearted people will not be able to withstand this sort of ammunition. Unconditional surrender and subscriptions gladly given will be the rule especially with people who are in sympathy with boyhood and who are willing to encourage it in worthy enterprises and healthy pursuits.

For several years the Christ Church Cadets, mainly young fellows of a soldierly bearing, were a source of pride to the city and to the church under whose encouragement and patronage the organization flourished. Then, for several reasons, it seemed wise to disband the company and for some time past Janesville has felt the loss of the inspiration which comes from the marching ranks of uniformed soldiers, even though they are but young boys, the future hope of the nation.

Recently the company has been reorganized and naturally the first important question to be settled concerns the uniforms which are as necessary to a military organization as the boys who expect to wear them and the guns with which to drill.

To Wear Olive Green
The uniforms chosen are to be a reproduction of the new uniforms recently adopted for the soldiers of the United States regular army, which are olive green in color and are very effective. The choice is certainly a very happy one even though the uniforms are expensive, costing \$500.

To Earn Their Uniforms
The problem of raising this amount of money had next to be considered and this the boys solved by volunteering to earn their own uniforms. The plan adopted promises success for both the Saturday Evening Post and the Brown Book, are well known and popular. The cadets work on commission and if they secure 1,000 subscriptions for the Post they will receive a handsome prize in addition.

Plans For Work
The Cadets have entered upon this work and upon the regular work of the organization with eager and earnest enthusiasm. They number thirty young boys between the ages of fourteen and twenty years and the expectation is to increase the membership to forty-five. No officers have been elected yet, but Captain Emil Engstrom, who will have charge of drilling the company, is serving as acting captain. The organization is under the direction of Rev. A. H. Barrington, rector of the Christ church.

The company meets for drill every Monday evening at 7:30 o'clock in the Christ Church Parish House. The guns used weigh about eight pounds. Inspection will be held once a month and frequent exhibition drills will be given. The Cadets will also take part in the parades on Memorial Day and similar occasions.

Deserves Support
As this is the only organization of a military nature in the city, the public should give it a hearty and unqualified support, both in sympathy and materially. While to Christ Church belong the credit of the movement, the membership is not restricted to the young boys of that church. The organization is much broader in its object and aims to interest as many of the young boys of the city as possible in those things which make for high ideals and purposes. With the fascination and physical development of the drill come the incidental lessons of obedience, respectfulness, self control, promptness, orderliness, the cultivation of good habits and true manliness. Any such organization influences the life of the community for good and merits support.

Value of Perseverance.
An admirable life of our King has been issued by Religious Bits. It shows how by sheer perseverance our illustrious monarch worked his way up from being mere Prince of Wales to his present exalted position. A more encouraging present for a child it would be difficult to imagine. London Punch.

Fad in Odd Ornaments.
The latest craze in Paris is the wearing of a lighted lantern as a personal ornament. The fashion originated with a speculative manufacturer, whose "petites lanternes" were bought by tens of thousands at the fair of Neuilly. The lantern is very small and neat, and made in a Gothic form after an ancient model.

Learning by Sound.
A schoolgirl, in one of her exercises, was asked to define the meaning of the equator. This is how it came out: "The equator is a menagerie lion running round between the north and south pole."

NEWS OF THE CITY IN BRIEF.

A Ball Game: There will be a ball game at Athletic park tomorrow afternoon.

Will Attend Picnic: The St. Patrick's T. A. and B. society held a meeting last evening and made arrangements to attend the picnic given by the Edgerton on August 6.

Dial in Place: The dial and hands of the new clock in the city hall tower are now in place and the balance of the mechanism will soon be installed. The clock faces are quite a slightly addition to the building.

Court Notes: In C. W. Feeders' court the case of Jessie Earle vs. R. T. Joyce came up for trial Monday and the result was a judgment in favor of the plaintiff for \$18.63. In Justice Earle's court the case of F. A. Taylor vs. John W. Hogan was adjourned until the 29th.

Repairing Hydrant: Workmen are today preparing to take up the hydrant at the corner of West Milwaukee and High streets to remove the obstruction in the pipe which has made it impossible to completely shut off the flow of water.

Walk is Impeded: Passage on the sidewalk on the south side of the Milwaukee street bridge is being considerably impeded by the railing which has been erected along the side of the bridge to keep the passers-by from crowding around and hindering the pile driver gang in their work. The work is going along rapidly of driving the new piles to strengthen the bridge in the places where the old ones have begun to rot away from the action of the water.

Building Freight Platform: Behind the Jones Leaf tobacco warehouse, at the corner of North Main and Penna Court streets the C. M. & St. P. R. R. is building a freight platform to facilitate the handling of freight that is simply transferred from one car to another by the local handlers, and is not stored here.

In Court: Fetters, Jeffris & Mont appeared for the plaintiff and G. G. Sutherland for the defendant in the case of David VanWart vs. Eva E. Jones and May Wadsworth, which was called in Justice Earle's court this morning. The hearing of the case was adjourned to September fifteenth. The action was for commission for selling real estate.

Backward Spring in Europe.

Not since 1836 has there been experienced in Germany, and generally throughout northern Europe, a spring so cold, late, wet and unpromising as that of the present year. Growing crops and vegetation of all kinds are fully three weeks behind their condition at this date in an average season.

Relic of an Old Ship.

In the course of some excavations which were being made in the river Lea the other day, the old hull of a ship, supposed to belong to the Anglo-Saxon period, was discovered sunk in the bed of the stream. From its resemblance to an old picture in the House of Commons it is thought that the hull may have belonged to a fleet with which King Alfred fought the Danes. It has now been removed to the British Museum, together with some other curios, all found at the same time.

ALL STRIKING GIRL WORKERS

LOCAL UNIONS SEND MONEY TO
KEWAUNEE STRIKERS.

HAVE A VERY UNIQUE PLAN

Glove Factory Employees Start a
Rival Concern to Accomplish
Wishes.

Several Janesville labor organizations have added themselves to the already long list of those who have given aid to the girl strikers of Kewaunee, Illinois. The Federal Trades Council, The Cigar Makers' Union and the Woman's Union Label League have already made contributions and other are expected to follow their example at the next meetings of the individual organizations.

Wanted Five Cents
The girls at Kewaunee in the glove and mitten works had been receiving four and a quarter cents for two dozen pairs of gloves, and at his scale the average worker received about forty-eight cents a day. The claim of the girls was for an increase of three-quarters of a cent on two dozen pairs, bringing the price to five cents and increasing the day's wages about seven or eight cents. When the employers refused to grant the demand of the striking employees, the girls started an independent co-operative factory.

Many Offerings
The enterprise of the strikers and their original idea for overcoming the difficulties of low wages immediately began to arouse widespread interest and expressions of sympathy, accompanied by financial encouragement. It began to come in from all sides. None of them amounting to more than five dollars, but all were taken, as an indication of a common sentiment for the strikers' cause.

Working Hard
The girls are displaying great energy in their work and have organized themselves into committees of two to canvass the merchants and other sympathizers in Kewaunee. On certain days a single committee has raised nearly one hundred dollars by this system of house to house soliciting.

Will Canvass Illinois
Members of the girls' union will next be sent through Illinois to present the cause in the various cities. Their leader, Mrs. Beeson, is an energetic woman who is able to keep the courage of the glove makers, and their enthusiasm in their project, at top pitch, and the success of the project is in a large part due to her.

Who Have Paid
A Chicago paper was one of the most substantial contributors to the cause. Their sharp lay, in the donation of four machines for the co-operative factory. Unions in Illinois, Wisconsin and Michigan are sending contributions to the fund for the purchase of machinery. The Federal Labor Union of this city sent two dollars to be applied to this cause, the Cigar Makers' union two dollars, and the Woman's Union Label League has voted to take three dollars from their treasury, and it is believed that the interest in the glove-making strikers is great enough so that nearly every union organization in the city will do something to aid the girls in their contest against their employers.

NEWS CONCERNING
SCHOOL AFFAIRS
CENSUS SHOWS AN INCREASE
There Are 144 More Children To Be
Accommodated—Doings of
School Board.

The annual school census as completed by C. K. Miltmore shows that during the year there has been an increase of 144 in the children of a school age. In 1891 the census showed 3,765 children, this year 3,909. There has been an increase in every ward except the Third which shows a decrease of 9. The Second ward shows an increase of 52 and the fifth an increase of 51. The Fourth is next with 47 and the First shows but 3.

The Adams school in the Second ward is now overcrowded and this increase of 52 will make it absolutely necessary that the building be enlarged to accommodate them.

School Board Meets
At a regular meeting of the board of education held yesterday afternoon at 5 o'clock, bills to the amount of \$307.53 were ordered paid and the board decided to visit all the school buildings during this week and see what repairs are needed.

Miss Gertrude Granger of this city, who has been teaching in New York for the last three years, was engaged as a kindergarten teacher at a salary of \$40 in place of Miss Gertrude Lusk, resigned. Miss Acker was appointed to succeed Miss Lange as a member of the High school faculty.

The heating and ventilating committee was instructed to purchase the coal for the coming winter at the best possible figure and the sale of the old building on the lot adjoining the Adams school was ratified. It was voted to ask the council for \$32,000 as the smallest sum that could be got along with.

The janitors elected for the schools for the present year are: L. S. Dudley, high school; Chas. Viney, Washington; R. P. Young, Adams; George Tolles, Jefferson; James Riley, Webster; John McCarthy, Douglas; E. Dixon, Grant; George Viney, Jackson.

Judge Dunwiddle and his son Allen went to Madison Monday on matters of business, and incidentally attended the sessions of the Monona Lake Assembly. They returned in the evening.

Mrs. Dr. Neal and two children of Chicago, who have been visiting for the past three weeks at the home of Mrs. Neal's sister, Mrs. George Powers, left for their home Sunday. On their way they will visit for a few days with another sister in Beloit. Mrs. Neale is in love with Janesville and thinks that it is an ideal place for a home.

The Garb of Ministers.
Not until Martin Luther's time did black become the distinguishing hue of clerical garb. When Luther laid aside his monk's clothes the elector of Saxony sent him a piece of black cloth and Luther had a suit made of it according to the prevailing cut of the time. It was long after before the cut of a clergyman's coat became different from that of the laity.

RUSHING WORK ON NEW DEPOT

JOISTS AND FLOORING ARE IN

The Building Will Now Go Up
Like Magic, with Warm
Weather.

Mr. Johnson, the junior member of the firm of G. A. Johnson & Son, who have the contract for the erection of the new Chicago, Milwaukee & St. Paul station in the city on Monday looking after their contract. Considering the bad weather they have had to contend with he was well satisfied with the progress of the work, and stated that with good weather they would have the building all inclosed and ready for plastering inside of six weeks.

Joists in Place
The joists and flooring on the first floor of the building are all in place and the brick layers have commenced laying brick for the side walls. The window and door frames are ready to be set up and a quantity of the iron beams and girders have arrived.

All that the contractors ask for is a spell of warm dry weather and they will make rapid progress with the work.

Brick Laying Finished: The brick laying on the addition to the pattern rooms of the New Doty Manufacturing company has been completed and the building is now ready for the inside work, after which the company will be able to go on with their work in that department, with the space that they need to handle their constantly increasing business. The Isabel Manufacturing company is to remain in its present quarters but the pattern rooms will be extended so as to occupy parts of both buildings; using the lower floor of the new building on three sides of which there are no windows, for a store room.

BAD RUNAWAY GIRLS

Leave Their Rockford Home For A
Good Time

Last Wednesday night two young girls giving their names as Burns and Flint arrived in this city from Rockford, their whereabouts being unknown to their parents. Yesterday the mother of one of the girls got a pointer that she was in Janesville. She started far here at once and arrived last evening. At first she could get no trace of them but later in the night Officer Bencke succeeded in finding them down near the Fourth Ward park. He turned them over to the anxious mother, who succeeded in getting them to return to Rockford with her. The runaways were not over sixteen years of age and were evidently out for a good time.

There will be a special meeting of Olive Branch lodge, No. 36, A. O. U. W. at East Side I. O. O. F. hall on Tuesday evening, July 22, for the purpose of making arrangements for an excursion to Geneva Lake. All members are earnestly requested to be present.

Boston is clamoring for a new custom-house and expects the next congress to appropriate money for the erection of a bigger and better arranged building than the present old structure in State street. The city's merchants say that with collections exceeding \$20,000,000 a year and much money now paid for rent of outside premises the port merits the new building and the government would profit by erecting it.

MILTON.

Milton, July 21.—The ball game of the year, was played here Thursday afternoon, between the Professional and Business men of the village. It was a wild game in some respects, but the business men had much the better players in their infield and won by a score of 19 to 4. The line-up was as follows: Business men, F. T. Coon, p; L. A. Babcock, c; M. C. Whitford, s s; M. H. Place, 2b; J. P. Holmes, 1 f; W. Hanson, c f; Geo. R. Boss, r f; C. W. Crumb, 1 b; D. A. Babcock, 3 b; professionals, C. E. Perry, D. D. S. p; J. F. Whitford, c; M. L. Brown, D. D. S. 1 f; R. W. Clarke, 2 b; Rev. T. W. North, 1 b; J. H. Burdick, M. D., 3 b; Rev. A. L. McClelland, r f; Prof. E. Shaw, c f; F. W. Blinneweis, M. D., s s. O. E. Orecutt and Rev. A. L. Platts, substitutes. F. C. Risdon, umpire.

Dr. Thomas C. Duncan, who died in Chicago last week, was one of the oldest and best known homeopathic physicians in that city. He attended Milton college in the sixties and was a warm friend of the institution and was its late honored President. W. C. Whitford, Dr. Duncan served in the First Wisconsin Cavalry during the Civil War.

The Board of Trustees of Milton College, have purchased of A. J. Root, the Mrs. Wood property, adjoining the college campus on the south. The house and five acres of land were bought for \$1,000 and it is one of the most desirable residence properties in town. A very pleasant home for President Daland and family. The Board are to be congratulated upon this acquisition.

This Wednesday afternoon, the married and single men of the village play ball and Friday the Professional and Business men try conclusions again.

Portrait of Lord Russell.

Halle, the musician, used to relate that the catalogue of an art exhibition held in Manchester, England, in 1855 was full of absurd errors. One picture, for instance, representing a madman sitting unclothed on the bare ground with his arms clinched round his knees, was called "Portrait of Lord John Russell." Halle declared that after contemplating the so-called portrait of the statesman for some time an old man was heard to remark with becoming gravity, "Probably when he was out of office."

The Point of View.

Careful readers of the Monthly Record, published by the inmates of the Connecticut state prison, will find a good many suggestions for the philosophy of life, says the Boston Transcript. One of these in the current number is: "It is a good idea never to do to-day what you ought not to do to-morrow."

Chinese Musical Instrument.

The Chinese have a singular instrument called cheng, or mouth organ. It is a circular bundle of small reeds of different lengths, pierced with finger holes at proper distances, and communicating with a common air chamber beneath. The notes are produced by stopping the holes with the fingers.

The New York Subway.

The tunnel for the New York subway, which is a disgracement and inconvenience to the city at the present time, is half cut. Thirteen months more will be required for the excavation. The cost so far has been \$13,750,000. More than \$2,500,000 has been spent in removing and changing sewers.

American Machinery in Turkey.

Agents for American agricultural machines sold in Constantinople last year 370 reapers and mowers, two binders, four rakes and one thrasher. No effort was made to sell binders, because they are considered too complicated for satisfactory use by the Turkish peasants.

Veils for Women.

Mohammedan women have a variety of face veils, modified by climate and the country in which they live. The yasmak of the Turkish and Egyptian women is unknown to the women of India, who envelop their faces in the folds of long, narrow gauze veils or shroud themselves in their beautifully embroidered sarongs.

The Next European War.

In the next European war Emperor William says 4,000 armed men with machine guns will be able to withstand 80,000. Very possibly. But if the 80,000 have machine guns they can withstand 1,600,000, and if the 1,600,000—But why consider the possibilities further?

TURN DOWN THE CITY SCHOOLS

COMMON COUNCIL REFUSE A \$2,000 EXTRA APPROPRIATION.

WAS AN EXCITING MEETING

City Fathers Will Raise the Sum of \$111,912.72 During Coming Year.

Janesville will raise \$111,912.72 to pay the running expenses of the city for the ensuing year, which is an increase of fourteen thousand over last year. This increase is chargeable to the fire and water, library, lighting, bonded debt and judgment funds.

The school board asked for an increase of \$2,000 in their fund in order that they might build an addition to the Adams school to accommodate the overflow of children. A majority of the aldermen, however, were too busy building the city hall, which will cost some \$25,000 over the appropriation to allow the school board to do any building. They had to be content with what they received last year, \$30,000 and the children will continue to be crowded.

Would Even Cut
Some of the school committee wanted the appropriation cut to \$28,000 and handed in a minority report to that effect. The majority report was finally adopted.

Hot Fight On
The demand of the board for \$32,000, led to a hot fight in the committee room and the arguments for and against the increase were at times quite heated and of a personal nature. The finance committee were in favor of the increase and had their report so made out.

All Aldermen Present
The regular meeting of the council last night was well attended. Mayor Richardson presided and a full board of aldermen were present. The clerk read the minutes for the meetings since June 6, which had been passed over by the council.

Assessment Approved
The assessment rolls as made out by the assessors and approved by the board of review were accepted and the clerk ordered to make out the tax roll.

The claim of Maggie McCrannan for \$700 for personal injuries was referred to the judiciary committee, who asked for more time.

License Granted.
The application of Mary McShane for a saloon license was referred to the license committee and later the license was granted. The report of the Janesville Water company of the location of the new hydrants was received and was placed on file. The report of the assistant street commissioner was referred back to the highway committee.

Petitions Placed
The petition of a number of the residents of Linden avenue that it be widened from the easterly line of Oak Hill avenue to Madison street was referred to the highway committee, who were given more time.

Library Report
The annual report of the library board was accepted and placed on file. The report shows:

The Report
Books in library last report, 14,333.
Purchased during year, 703.
Given to library, 89.
Blinging magazines and pamphlets, \$101.
Government and state books, \$108.
Destroyed on account of contagious disease, 3.
Lost, 3.
Duplicate sold, 1.
Withdrawn from circulation, 151.
Books on hand at present time, 15,176.
Taken from library during year, 51,186.
Receipts
Balance on hand last report, \$514.59
Appropriation, 3,000.00
Fines, 69.97
Total, \$3,684.56
Disbursements, \$3,091.81
Balance, \$592.75

The report of the board of education for May and June was referred to the committee on schools and accepted.

The finance committee reported favorably on a batch of bills and the clerk was instructed to draw orders for the same on the several funds.

The Tax Levy
Alderman Gilkey from the finance committee presented the annual tax levy. He stated that before presenting the report of the finance committee he wished the matter of how much was to be appropriated for schools settled. He did not wish to present a report and have it turned down by the council. The finance committee were in favor of allowing the \$32,000 asked for by the board as they thought they would not ask for more than they needed and don't think that they will rise any more then they have to. On account of improving the Adams school they need more money and besides at the present time they are \$2,000 in debt. He moved that the board be given \$32,000. Alderman Rice seconded the motion for the purpose of getting the question before the council.

Oppose Move
Alderman Hemming, chairman of the committee on schools said that there was a division on the question in the committee, the majority recommending \$32,000 and the minority \$28,000; they had compromised on \$30,000. We thought the children were not suffering for room and that enough money had been spent on the Adams school. He made a motion to amend Alderman Gilkey's motion by substituting \$30,000 for \$32,000. The amendment was put to a vote and carried all voting except Alderman Gilkey. The original motion was lost by the same vote.

Levy Presented
The levy for the ensuing year was

then presented and was as follows:

School fund.....	\$ 30,000.00
General fund.....	10,000.00
Fire and water fund.....	15,000.00
Library fund.....	3,000.00
Lighting fund.....	15,000.00
Bonded debt fund.....	11,200.00
Bridge fund.....	3,500.00
Judgment fund.....	6,187.72
First ward fund.....	1,000.00
Second ward fund.....	2,000.00
Third ward fund.....	4,000.00
Fourth ward fund.....	2,500.00
Fifth ward fund.....	2,000.00
Total.....	\$111,912.72

Recommendations Made
The fire and water committee recommended the purchase of the transmitter which is used to call the fire police and call men of the department. The machine was the property of W. W. Willis and the clerk was instructed to draw an order for \$68 to purchase it. The committee also recommended that the West side fire station be altered so as to hold the entire fire apparatus belonging to the West side. The committee was instructed to act.

Ask For Time
The highway committee asked for further time to consider the vacation of Wilson street in Mole & Sadler's addition. The city engineer was instructed to prepare profile and grades of North High street from West Milwaukee street to the Northwestern right of way and on West Bluff street from River to Academy street.

Sewage Report
The sewage committee presented a report in regard to work on the system. They would not be able to do any actual work until spring and that a sanitary engineer be secured for a time to consult with the city engineer. Also on account of the amount of work the city engineer has on his hands for this fall that an assistant be hired to help him for two months. The committee was instructed to hire an assistant.

New Library Board
Mayor Richardson announced that as the terms of Wm. Blanton, H. McElroy, and Mrs. Ogden H. Fethers, as members of the library board had expired he would reappoint them as members of the board. Alderman Rice, took exceptions to the appointments as the first ward was not represented on the board. The Mayor stated that H. McElroy represented the first for many years and as the job is a thankless one, he always felt pleased when he could get people who took an interest in the work to act as members.

The permit granted Mrs. B. George to move a house down Jackson St. was rescinded and a new one granted her to move the building down Franklin street.

Must Repair Tracks
The street commissioner was instructed to notify the Street Railway Company to repave between its tracks on the Milwaukee street bridge South Jackson street as macadamized by Brown & Connors was accepted.

The street commissioner was instructed to repair School street between South Jackson and High street.

Are to Prepare Plans
The city engineer was ordered to prepare plans for a storm sewer on Wall street from the east side of River street to High street and on High street from Wall street to Race street.

Alderman Lowell introduced an order that the Mayor sign an agreement with the St. Paul road that they be allowed to connect with this sewer on the payment of \$550 to the city. Ald. Rice objected to a clause in the contract which he claimed made it obligatory to make the connections for the railway company free of charge. In case they removed them from the storm sewer to a sanitary sewer. The matter was finally left with the aldermen of the ward to settle with the company.

Report on Alleys
Dr. Edden made a report on the condition of the alleys and that it was impossible to keep them clean and that some system of garbage boxes should be devised. This was left with the health officer and the chairman of the highway committee. The street commissioner was ordered to build a walk in front of lot 2, block 14, original plat. The council then adjourned.

Made Money Selling Papers.
Theophilus H. Porter, for forty-six years a newspaper carrier in Lynn, Mass., retired from business last week, having made enough money to keep him comfortably for the rest of his life. In all that time he has walked about fifteen miles every day but Sunday, when he went to church regularly, as he did not believe in Sunday papers.

Earthquakes in Austria.
Since 1895 earthquakes in Austria have been recorded by instruments installed under the direction of a government commission. In 1898, 209 shocks (mostly small) were noted; in 1899, 190, and in 1900, 169. Reports are regularly received from a large number of volunteer observers, and several complete seismological observatories are maintained.

Humor of Mark Twain.
Mark Twain occasionally makes a grim effort to earn a reputation as a philosopher. Recently he laid down the dictum that a malarial chill has one advantage, for through its agency according to his conception it is a means by which "an all-wise Providence has devised a way by which man can indulge in exercise without exertion."

Duty Carried to Extremes.
A man with the courage of his convictions, at least, is the clergyman in Concord, N. H., who dined with his father at a reputable hotel and afterward had the wine clerk arrested because the complainant's father got a glass of claret when he ordered it. The minister has been interviewed, but his parent has not been heard from.
